iPad Apps 3/4B

Please find below a list of core apps that 3/4B students will be using this year. If these could be downloaded and installed at home it would be appreciated. If prompted, please also install the latest iOS update through Settings—General—Software update.

Apple Pages, Keynote, iMovie and GarageBand may have come free with a recently purchased iPad, otherwise you may need to buy these.

Explain Everything and Book Creator are two paid apps that are optional for creating content. All other apps are free.

+ Seesaw parent access app.
